Question Id : 1455899991 Sub Question Shuffling Allowed : Yes Group Comprehension Questions : No Question Pattern Type : NonMatrix Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0 Question Numbers : (1 to 5)

Question Numbers 1 to 5 :

Read the following passage and answer the questions that follow :

Dogs and cats should never be permitted to eat chocolate, because chocolate works like a poison on their bodies. Chocolate contains a chemical called Theobromine, which is similar to caffeine. Human bodies are able to process the Theobromine without any ill-side effects, but dogs and cats cannot.

Different types of chocolate contain different amounts of Theobromine. It would take twenty ounces of milk chocolate to kill a twenty pound dog, but only two ounces of baker's chocolate or six ounces of semi-sweet chocolate. The amounts, of course, are much smaller for a cat, whose body weight is typically less than that of a dog. Most Cats are not naturally attracted to eating chocolate, but many dogs are. Dogs, by nature, will sample nearly anything that they see their masters eating, so pet owners must take care to keep all chocolate products well out of reach of their dogs and cats.

Sub questions

Question Number : 1 Question Id : 1455899992 Display Question Number : Yes Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

According to the passage, why is chocolate poisonous for dogs and cats?

Options :

1. ✘ It contains caffeine
2. ✘ Chocolate is made from processed cocoa
3. ✘ It gets stuck in their intestines

4. ✓ They cannot process Theobromine

Question Number : 2 Question Id : 1455899993 Display Question Number : Yes Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

How much milk chocolate would be poisonous to a cat?

Options :

1. ✓ Substantially less than twenty ounces
2. ✗ Substantially more than twenty ounces
3. ✗ Approximately one pound
4. ✗ Half- a Hershey chocolate bar

Question Number : 3 Question Id : 1455899994 Display Question Number : Yes Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Why might a dog eat chocolate, according to the passage?

Options :

1. ✗ because it tastes good

dogs won't eat chocolate

2. ✘

they can smell the theobromine

3. ✘

dogs like to imitate their owners

4. ✔

Question Number : 4 Question Id : 1455899995 Display Question Number : Yes Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Choose the correct statement about the passage :

Options :

Chocolate has ill effects

1. ✘

Cats take twenty ounces of milk chocolate

2. ✘

Cats follow the habits of their masters

3. ✘

Human bodies process the Chemical called Theobromine

4. ✔

Question Number : 5 Question Id : 1455899996 Display Question Number : Yes Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction

Time : 0

What does 'sample' mean in the passage?

Options :

1. ✘ model

2. ✔ taste

3. ✘ simple

4. ✘ gluttonous

Is Section Default? :
