If the data given in (ii) alone is sufficient to answer the question then choice (2) is the correct answer. If both (i) and (ii) put together are sufficient to answer the

question but neither statement alone is sufficient, then choice (3) is the correct answer. If both (i) and (ii) put together are not sufficient to answer the question and additional data is needed, then choice (4) is the correct answer.

2. Problem Solving

PREPARATION OF MERIT LIST AND ASSIGNING OF RANK IN AP ICET-2024:

➤ The candidates who have secured 25% marks in AP ICET-2024 (50 out of 200) and candidates belonging to the category of SC and ST to whom qualifying marks have not been prescribed, shall be assigned rank in the order of the merit on the basis of marks obtained in ICET.

➤ For the preparation of merit list, in case more than one student scoring the same marks at AP ICET-2024, the tie will be resolved as follows:

 i) By considering the marks scored in Section-A

 ii) If the tie persists, marks obtained by a student in Section-B will be taken into consideration.

 iii) If the tie persists, the tie will be resolved by taking the age of the candidate into account and giving the older candidate priority.

➤ Ranks obtained in AP ICET-2024 are valid only for 2024-25 academic year admissions into the various universities, constituent and affiliated colleges in the State of Andhra Pradesh.

➤ All disputes arising out of any matter concerning to AP ICET-2024 shall be subject to the jurisdiction of High Cour4 of AP, Amaravati only, in such disputes, only the Convener, APICET-2024 and the Secretary, APSCHE can be impleaded as respondents.

NORMALIZATION OF SCORES

➢ AP ICET-2024 is being conducted in two sessions based on the same syllabus, same pattern for candidates having same eligibility criteria. A candidate will be eligible to appear only in one session. Since the question paper will be different for each session, there is a possibility that the candidates compare themselves about the variation in the difficulty level of questions. However, it may be noted that utmost care will be taken so that all the papers are of same standard. Further, it is decided to adopt a normalization process to eliminate any such variations in the difficulty level of various sessions.

What is Normalization?

Normalization, as used in Indian context, is a process for ensuring the students neither advantaged nor disadvantaged by the difficulty of examinations conducted in multiple sessions. This process is based on a simple formula which has been adopted as it is recommended by the experts from reputed educational institutions at all National level and Universities level. The same process is being implemented in other State / Nation level entrance tests, for admission into undergraduate and graduate professional courses. Normalization process ranks all the candidates across all sessions on a comparative scale. In any normalization process, the marks of the easier session may be reduced marginally and the marks of the harder paper may increase marginally on the global level, depending on the average performance in each session. If there is no much difference in the averages between two sessions then there won't be much difference in the normalized marks as well. Normalizing marks would justify the candidates while protecting their actual performance.

AP ICET Marks Normalization Process:

➢ The main aim of the normalization is to justify the candidates who got a difficult paper compared to an easier paper. Hence, the task is to rationalize in a best possible sense and rank the candidates based on the global performance. Various national level examination bodies like CAT, JEE (Main), GATE etc. are currently adopting such normalization procedures. Correspondingly, Committee on normalization has deliberated extensively and decided to use the following normalization procedure.

- **SMS:** (Average + Standard Deviation) of the session in which the candidate belongs to.
- **GMS:** (Average + Standard Deviation) of all the candidates across all sessions together.
- **Top Average Session:** Average marks of the top 0.1% of the candidates in the session in which the candidate belongs to.
- **Top Average Global:** Average marks of the top 0.1% of all the candidates across all sessions together

Notes:

➢ For the candidates for whom there is no qualifying cut off in AP ICET-2024, if the marks in AP ICET-2024 go below zero (negative) after normalization, the total marks will be treated as zero and the ranks are assigned based on those marks. If tie persists, then AP ICET-2024 normalization marks will be considered for breaking the tie.
